

TKR

LED TICKER DISPLAYS

Experience dynamic communication with Sunrise Ticker Products. Our innovative displays provide real-time information for informed decisions in various applications. The TKR's graphics versatility attracts sports, finance, and design industries. Customize the display for your needs.

Durable, easy installation, and reliable for transit, notifications, and architecture. Collaborate with us for outstanding results, effective communication, and added elegance to your space.

BENEFITS

- ✓ LED ticker displays by Sunrise SESA Technologies offers high visibility in any lighting condition.
- ✓ Provides real-time information updates from various data sources.
- ✓ Highly customizable, allowing businesses to tailor content to their specific needs.
- ✓ Ticker displays engage viewers with dynamic, scrolling content for effective communication.
- ✓ Energy-efficient, reducing power consumption and promoting sustainability.
- ✓ Durable and long-lasting, designed to withstand harsh environments.
- ✓ Installation and maintenance are easy, thanks to user-friendly interfaces and management software.
- ✓ LED ticker displays are versatile, suitable for diverse industries and applications.

7.62mm (0.3") PIXEL PITCH - with 3,200 nits of brightness

Model	Pixel Height	Character Height	Cabinet Height	Weight	Peak/Avg Power
TKR-M8-1648	16	4.8"	5.81"	3.5 lbs/ft	19/10 watts/ft
TKR-M8-2472	24	7.2"	8.2"	4.2 lbs/ft	29/14 watts/ft
TKR-M8-3296	32	9.6"	10.6"	5 lbs/ft	38/19 watts/ft

"Sold in increments of 3' after minimum length of 6-ft**"

4mm (0.16") PIXEL PITCH - with 1,000 nits of brightness

Model	Pixel Height	Character Height	Cabinet Height	Weight	Peak/Avg Power
TKR-P4-3205	32	5"	6"	3 lbs/ft	29/15 watts/ft
TKR-P4-6410	64	10"	11"	6 lbs/ft	58/28 watts/ft
TKR-P4-9615	96	15"	16"	9 lbs/ft	87/43 watts/ft

"Sold in increments of 9.45' after minimum length of 10-ft with power drop every 74, 37 & 25 ft respectively"*

2.5mm (0.098") PIXEL PITCH - with 1,250 nits of brightness (FLEX)

Model	Pixel Height	Character Height	Cabinet Height	Weight	Peak/Avg Power
TKR-F2.5-4847	48	4.7"	5.7"	3 lbs/ft	29/15 watts/ft
TKR-F2.5-9694	96	9.4"	10.4"	6 lbs/ft	58/28 watts/ft
TKR-F2.5-14414	144	14"	15"	9 lbs/ft	87/43 watts/ft

"Sold in increments of 9.45" after minimum length of 10-ft with power drop every 25, 37 and 74 ft respectively"*

2.5mm (0.098") PIXEL PITCH - with 1,250 nits of brightness (STRAIGHT)

Model	Pixel Height	Character Height	Cabinet Height	Weight	Peak/Avg Power
TKR-F2.5-4847	64	6.3"	7.3"	4 lbs/ft	43/20 watts/ft
TKR-F2.5-9694	128	12.6"	13.6"	8 lbs/ft	80/38 watts/ft
TKR-F2.5-14414	192	18.9"	19.9"	12 lbs/ft	110/53 watts/ft

"Sold in increments of 12.6" after minimum length of 10.5-ft with additional power drop after 25, 37 and 74 ft respectively"*

The details above are our standard models and most common size configurations.

We can create custom-sized matrices with the desired pixel pitch to meet your specific size requirements. Our designs include a variety of color choices and custom mounting options using brushed aluminum and steel enclosures.

Our expertise extends to building indoor and outdoor cabinets that comply with industry standard ratings. For outdoor usage, we can modify any of the aforementioned models/sizes. This includes increasing the LED intensity to 7,000 nits, utilizing IP67 rated power supplies, and applying an IP65 rating coating to the LED boards.
